I QUALIFIED PLANNERS AROUND YOU  
**YA CERAMIC**

# COMPANY OVERVIEW

OYA CERAMIC is a leading integrated trading and manufacturing enterprise specializing in the production and distribution of ceramic tiles and porcelain tiles. With over 15 years of experience in manufacturing and exporting, we have established a strong foothold in the global market, particularly in the United States, Canada, Australia, New Zealand, Chile, Colombia, and other South American countries.

## Production Strength

Our state-of-the-art facilities and skilled workforce enable us to produce a wide range of ceramic and porcelain tiles that meet the highest quality standards. We pride ourselves on our ability to customize our products to meet the specific needs of our customers.

## Export Experience

Over the past 15 years, we have honed our export capabilities and built robust distribution networks worldwide. Our products are widely recognized for their durability, elegance, and affordability, making them a popular choice among homeowners, contractors, and interior designers.

## Key Advantages

1.Sufficient Inventory for Prompt Delivery: We maintain a sufficient inventory of our standard products to ensure prompt delivery and meet the urgent needs of our customers. This ensures minimal delays and quick turnaround times.

2.Flexible Order Quantities: We do not impose minimum order quantity requirements on our standard products, allowing customers to order in quantities that best suit their needs. This flexibility makes it easier for customers to manage their inventory and costs.

3.Quality Products and Comprehensive After-sales Service: We are committed to providing our customers with high-quality products that meet international standards. We also offer comprehensive after-sales service, including product warranties, technical support, and timely replacements or repairs. This reduces the costs and risks associated with promoting our products.

4.Diversified Payment Terms: We offer our customers a variety of payment options to ensure smooth and convenient transactions. This flexibility allows customers to choose the payment method that best suits their business needs and financial situations.

5.Sustainability and Environmental Responsibility: We are committed to sustainable practices and environmental responsibility. We use eco-friendly materials and processes in our production to minimize our impact on the environment.

## Customer Focus

At OYA CERAMIC, we understand that our success depends on the satisfaction of our customers. We strive to provide exceptional customer service, from initial inquiries to order fulfillment and beyond. Our team of dedicated professionals is always ready to assist our customers and ensure a smooth and enjoyable buying experience.

## Future Prospects

Looking ahead, we are committed to continuing our growth and expansion in the global market. We are constantly investing in new technologies and equipment to enhance our production capabilities and product quality. We also strive to expand our product range and explore new markets to meet the evolving needs of our customers.
